The prior art could not operate with either failure of the prior art, or destroying the teachings

of the prior art to function. Applicant has specifically placed the inventive rope in the environment of and elevator assembly, and as such, inherently taught certain strength requirements which as stated, the prior art of record cannot provide without failure or destroying what is taught.

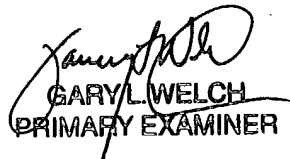

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
